Subject: Weekly Update

Police Department

The radar board that's pole-mounted near Jackson Elementary stopped working and is being shipped to the manufacturer for evaluation.

Quotes for a new radar trailer have been collected; awaiting a check from CVMIC and discussion with Hartford and Slinger on which trailer to buy.

All of the radars and LIDARs (lasers) went through their annual certification.

Fairly quiet week in the village.

Fire Department

This week was a good week with only ten medical calls but with twenty patients. One of the calls was a multi-vehicle accident accounting for ten patients. We also responded to a head-on collision (semi vs. car) on Division Road at Mill Road. Two patients were taken to the hospital. The prognosis has not yet been released. There were also had two fire calls this week. We assisted West Bend with a fire off of CTH Z. The second was a kayak on fire on Hasmer Lake; the cause is under investigation at this time.

Joint Parks and Recreation

This has been the last week of most summer programs. The next two weeks will be spent repairing, cleaning, more repairing, and more cleaning before beginning Fall/Winter programs in early September.

The Boys & Girls Club held their end of the season "All Clubs Picnic" at Hickory Lane Park today.

Renee is working on summer adult league playoffs.

Everyone is busy working on the Fall/Winter Guide, which will be online by the end of the month and mailed soon thereafter.

Renee took a group of seniors to Potawatomi Casino on Tuesday. All participants had a great time.

YOUTH FLAG FOOTBALL: Register NOW to ensure a t-shirt. Play begins in September!

PLEASE HELP US – by encouraging friends and neighbors to get their CIRCUS tickets ASAP. This is a fundraiser for the Park & Rec. Department which will receive a percentage of all pre-sold tickets. Circus Day is Friday, August 26th. More details can be found on the website at: jacksonparkrec.recdesk.com.

Registration for the OCTOBER 15th GLO RUN/WALK is now open for sponsors and participants! It's going to be fun for the entire family – featuring live music by "STR8AWAY" at the AfterGlo Chili Party! Details are on the web at: jacksonparkrec.recdesk.com.

The 4k security door (provided by WBSD) is being installed in the Early Childhood corridor next week.

Building Inspection

Final occupancy inspections were completed on Building #1 in Cranberry Creek. Two occupancy certificates were issued. One unit is a model and the second unit was rented and will be occupied next week.

Interior remodeling was started at the Piggly Wiggly on Monday. The plumbing contractor accidentally cut through a refrigeration line located under the slab. Work was temporary stopped until the refrigeration contractor repaired the line.

Floors are being poured this week at the Lumber Sales building on Delaney Court.

Jim and Brian met with the developer and HOA president of Cobblestone Trails regarding a drainage complaint. The temporary situation installed is working and doing what it is supposed to do. It will be re-evaluated in September.

Public Works

The Jackson Water Utility continued a normal week with Digger's Hotline locates, valve exercising, fire hydrant maintenance, and meter changeouts. The meter change out generated by the disconnection was completed this week. We have one more $\frac{3}{4}$ inch meter scheduled in October and two $1\frac{1}{2}$ inch meters to do in order to complete the program for the year. The test results were received from the water samples taken from all wells and distribution system on July 20, 2016. Bac-T samples from all wells were safe. Nitrate samples in all wells ranged from non-detect to 2.9 mg/l with a max contaminate level is 10 mg/l. Well #6 VOCs is non-detect. A leak in the water system was found at Sysco Foods when water was pouring into the truck bay service pits. The hydrant valve bolts had corroded allowing the top of the valve to come apart. This is a private hydrant owned by Sysco Foods.

The Street & Parks Department had a normal week replacing broken trash containers, mowing, prepping ball fields and regular maintenance. The new flags along Main Street (STH 60) have been installed.

At the WWTP, the bypass gate is being installed with some problems. The #2 filter is out of service with problems being investigated, and sludge is being hauled from the blue tank.

The streetlights for Wilshire Drive haven't yet arrived. Work continues on the Storm Sewer Management program. The Industrial Drive sidewalk project is being advertised with a bid opening on August 23rd.

Clerk/Treasurer

There were 677 voters in the Village of Jackson for the partisan primary election – a 16% voter turn-out of the 4,254 registered voters. Of the total, 171 were absentee ballots. There were twenty-three election-day registrations. The Municipal Board of Canvassers will meet this afternoon to canvass late arriving absentees if there are any. The Village of Jackson is blessed with a multi-generational team of election officials. Their hard work and dedication is greatly appreciated. Paula and Carla have entered the election into the Statewide Voter System known as WisVote. Deanna will finalize the report after today's Municipal Board of Canvasser meeting

Thank you to the DPW Department for setting up the booths and tables for the election and the quick clean up the next day, preparing for the afternoon Mid Moraine Municipal Court.

Administrator

We extend our condolences to the family of Brian Kober on the death of his mother earlier this week.

The Town of Jackson, at its regular meeting on Thursday evening, agreed to adopt a resolution authorizing them to proceed with mediation with the Village of Jackson pursuant to Wisconsin Statute 66.0307(4m)b. relative to their lawsuit against the Village.
